Welcome. What you see here on the surface is a lot less than what you will get.

[ALSO, please be sure to read the rules at the bottom of this page]

As a none member you are restricted to just the free area of the WestGallery.

I – The MONEY \$ Thing;

- a- Costs; 66L every SIX months, or just 11L per month, [that is a very good price. Equivalent to approximately --66L = ~\$1.30US, or around \$0.20 that is 20 cents per month.]

Most of the demos and interactions are also included for that price. Where they are not, they can cost upwards of 5L per trip or as little as 1L. [where/when you do get charged extra, will be rare, but these extra charge items are planned to include wrestle bots as well as unique lesbian and vampire fetish bots/statues for you to interact with. Also the oldest profession is alive and well in second life See this article – [escorts](#) among others -[escorts2](#). and NO this hobby is anything but secretive. SL is a lot more fun than most VR Adult Sites, and more often much better and LIBERAL AND YES, along with various rooms and sky boxes set aside for couples to play pose the salami, there will be more exclusive venues that “ClubCatfight” controls with their own contract facilitators, mainly to involve basic fantasies like two girls fighting then fucking each other over Big Billy’s wank ... currently these will be at the Space Privateer’s Suite and various Holo-Deck fantasy rooms. These are not on the map, at least not the maps here. You can pick those up, as well as, meet some gals at the red lips or “red shift” after hours bar. Our MEGA Holo Deck area is generally open to the members at large 24/7, but will be closed off when used with our more unique entertainment vehicles 😊]

There are free gifts every month, but you have to look for them 😊, and we will be setting up an avatar-statuettes shortly for providing the clues, hints and maps for those fun searches. Look for a “ ? ” with or without a hot babe.

Also, there is one semi private area, with two rooms [the read light sky box] but more are planned, depending on the needs. They are marked at the transporter with a simple “SP” tag.

There is also two Store Areas. One mainly for Fetish, the other for items other than “Adult”. Adult list would include all kinds of sexy fetish art and toys, while the None Adult annex has items like lights, collars, hot dog machines, clothing items, sharp teeth, etc., etc.

- b- MAKING \$L; Private female avatar contractors are welcome.
- c- Have a new product in SL that we missed and you think we could use? Then IM “WestCat” in world.

II- What have we got and where is it?

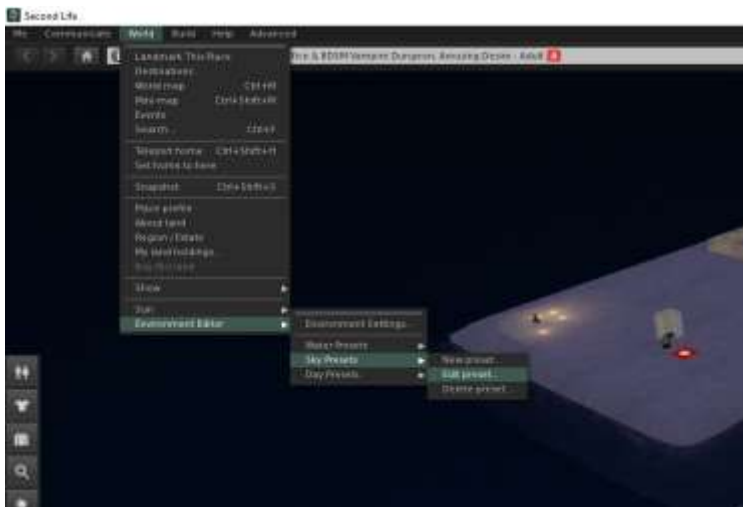

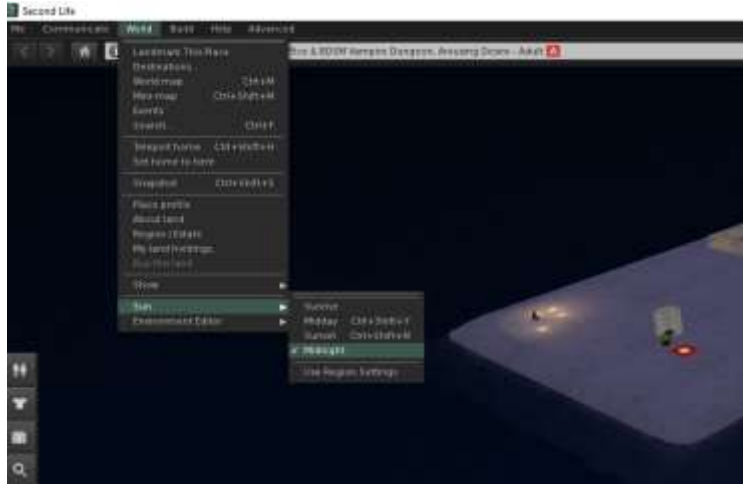

OK here it is the big map, and an outline map for each of the three main areas.

III- Keeping up with the Fun.

A lot of SL Clubs use IM or instant messaging, and if you follow it while in world or while in Second Life it can drive you nuts! So, I am preferring to just make things known with simple blog entries, and eventually set up a group Email for those who want to know more and be kept in the loop.

For now there is a Store blog [here>>>](#) which I will also begin to use for upcoming activities.

In addition, I already have a general [calendar>>>](#), which I also put my Catfight works on and planned release dates. I will also announce events for Club CatFight here as well. Does not always pan out exactly but hey 😊

IV-The Rules 😞

- 1- Things that will get you kicked out and possibly banned for life from the entire compound;
 - a- Trying to get in, or especially sneaking in somehow without a membership.
 - b- Trying to hack the site or bring in any kind of hacking script.
 - c- Speaking of scripts. Over use of scripts. YES we do have a program that monitors that on each of the three islands.

- 2- Repeated and objectionable comments and actions to other Avatars [or as the Vamps like to call them ... DINNER !!! 🍽️] Now this is a tough one to call simply because of the nature of some
